

Supporting your project at all stages

If you are a Brussels based SME, company, NGO or academic research centre that seeks funding from the EU, NCP Brussels is your official contact point particularly in regards to the Horizon 2020 funding programme.

Indeed, getting funding for your project from the European Commission is no simple task, but the good news is that NCP Brussels experts – trained by the Commission – are here to assist and advise you at all stages of your project.

Additionally, we organise workshops and seminars on thematic topics, skills improvement and project facilitation.

1 Before Project Submission

2 During Project Implementation

3 Project's Result Exploitation

1 Before Project Submission

At this stage, what you need most is correct and thorough information. Understanding all the details of Horizon 2020 and recognising which are relevant to you can be quite a challenge, which is why NCP Brussels experts are available to guide you through it.

The services we provide include:

- Assessment of the relevant EU funding for you.
- Information about Horizon 2020 programme and available subsidies during proposal writing phase.
- Targeted partner and expert search.
- Guidance through administrative, legal and financial rules of EU project bidding.
- Proofreading and pre-screening of project proposals.
- Support of preparation of contract with European Commission.

2 During Project Implementation

Once your project is selected for funding, the work has only begun! NCP Brussels will guide you throughout the implementation of your project to make sure that the project is executed smoothly and overcomes issues, including:

- Individual support during contract preparation with the European Commission and consortium members.
- Information about legal and financing issues.
- Advice on technical and financial reporting to European Commission.
- Help through unexpected problems.

3 Project's Result Exploitation

NCP Brussels also closely follows its clients' projects until the result exploitation phase and helps ensure your project's future aspirations are met.

This could be in the form of support for further EU or regional funding for your research and innovation activities, as well as individual support to transfer your results into market innovations. NCP Brussels' close relationship with Enterprise Europe Network will help your project be established as a thriving innovative company in Brussels.

Do not hesitate to contact us for more information - info@ncpbrussels.be!
